

# CHILD AND YOUTH CENTER\*

25 YEARS OF PROMOTING AN ENVIRONMENT  
OF CARE, GROWTH AND DEVELOPMENT  
FOR CHILDREN AND YOUTHS OF THE AREA

**Since 1997, Los Pinos Foundation has been working at Casavalle, one of the most vulnerable areas of Montevideo. We have brought quality education and sports programs to support children and young adults from the area, by developing their skills and talents, so they can achieve a better future based solely on their potential.**

In the Child and Youth Centers, we conduct non-formal, after-school or before-school education programs directed toward children and young adults which include activities such as: study support group, gardening, recreation and sports, emotional and values education, plastic arts, IT, robotics, and educational and camping trips. Food assistance and comprehensive family assistance are also provided to the families.

The Child Center began in 1997, and, by 2002, thanks to the support of various companies and entities, an 800m<sup>2</sup> building was erected, which allowed for the addition of the Youth Center, geared toward young adults.

*\*Working alongside the Child and Youth Agency (INAU)*

In 2002, **thanks to the support Of various companies and entities**, An 800m<sup>2</sup> building was erected.

The Child Center aims to support children and their families during the Primary school stage. Various activities are offered to stimulate the student and help them achieve their potential in every area, contributing to their overall development, as well as strengthening the family to support them when dealing with the complex situations they may face.

In the Youth Center, one of our goals is to promote academic continuity in young adults, providing them with academic support to stop school dropout and preparing them for tertiary education and/or their first work experiences. We aim to create a socialization space, where we encourage continuity in the bonds between young adults and their families.

## AT LOS PINOS, WE OFFER PROGRAMS THAT INCLUDE ACTIVITIES SUCH AS:

**ACADEMIC  
SUPPORT**

**EMOTIONAL  
EDUCATION**

**IT AND  
ROBOTICS**
